

# COURSE PREREQUISITES

---

Students must meet all course prerequisites outlined in the Academic Catalog.

Beginning five business days after final grades are released, students who do not meet the minimum grade requirements (or have missing grades) will be dropped by the Office of the University Registrar from any future-term courses that require those prerequisites, unless they receive departmental permission. Exceptions are listed below.

## Course Extensions

A grade of "I" (Incomplete) will temporarily satisfy the prerequisite until five business days before the course begins. After this point, if the prerequisite is still unmet, students will be dropped from the course unless they receive departmental permission.

## Off-Campus Pre-Requisite Courses

For prerequisite courses approved to be taken off-campus, failure to submit transcripts five business days before the course begins will result in students being dropped from courses dependent on the prerequisite.
