

EDUCATIONAL LEADERSHIP, ED.S.

The educational leadership program at Saint Louis University's School of Education (<https://www.slu.edu/education/>) is a long-standing, highly respected graduate program preparing educational leaders through the specialist in educational leadership degree. The educational leadership specialist degree prepares students to become executive-level educational leaders.

Students enter the SLU program with a master's in educational leadership or a related field. The Missouri Department of Elementary and Secondary Education uses the specialist degree to qualify students who do not yet have a doctorate for advanced, superintendent certification.

In addition to a master's degree, 30-36 credits in educational leadership coursework are required by the Missouri Department of Elementary and Secondary Education for program coursework to count toward the superintendent certificate.

Educational leadership students with a job opportunity dependent on early certification or a salary increase in a school district salary schedule may apply for the specialist degree while completing doctoral coursework.

Students engaged in the concentration in Catholic education can achieve an Ed.S. by completing the courses outlined in the roadmap if they wish to get certification as a superintendent.

Curriculum Overview

The degree requires the completion of 30-36 credits of coursework. The course offerings are aligned with the state requirements for accreditation, as well as the course requirements students must have to qualify for certification. Those courses are set over a three-year cycle so all entering students have access to the courses they need.

Fieldwork and Research Opportunities

The program includes site-based activities aligned with coursework. Those students wishing to acquire superintendent certification must ensure they complete a three-hour internship in the field.

Careers

The educational leadership specialist degree program prepares students to fill a variety of leadership roles including superintendent, assistant superintendent, director, program director and curriculum/teacher leader.

Roadmap

This roadmap is just one example of a semester-by-semester plan of study for this program. There are other plans students can and do take. The plan of study for each particular student is established in consultation with each student's academic advisor; *this roadmap does not replace academic advising appointments.*

Roadmap notes:

- This Roadmap assumes full-time enrollment unless otherwise noted.
- Courses/Milestones marked with an "!" are critical and must be completed in the semester listed in the Roadmap to ensure a timely graduation.
- Course availability and sequencing are subject to change.

The Ed.S. degree requires 30 credit hours (36 credit hours if a student has not completed the six hours of research prerequisites). The courses that comprise the 30 credit hours will be different for each student. Each student's specific roadmap will vary depending on courses taken during their master's degree program and their certification goals.
