

BACHELOR'S TO PROJECT MANAGEMENT, M.S. ACCELERATED PROGRAM

Earn your bachelor's and master's degrees faster while building advanced project management expertise through Saint Louis University's Bachelor's to Master of Science in Project Management Accelerated Program.

Designed for undergraduate students in the School for Professional Studies, this fully online pathway allows you to begin graduate-level coursework while completing your bachelor's degree. Through project-based learning and practical application, you will develop skills in project planning, execution, and delivery, grounded in the Project Management Body of Knowledge (PMBOK®) and supported by Agile frameworks that reflect today's dynamic project environments.

Students may complete up to 12 graduate-level credits that count toward both undergraduate and graduate degree requirements. Upon admission to the master's program, these credits seamlessly apply toward completion of the Master of Science in Project Management.

As part of the School for Professional Studies, this flexible program is designed for working professionals. With six accelerated, eight-week terms offered each year, you can progress efficiently while balancing your academic, professional, and personal commitments.

For additional information, see the catalog entries for the following programs:

Project Management, M.S. (<https://catalog.slu.edu/colleges-schools/professional-studies/project-management-ms/>)

Requirements

To participate in the bachelor's to master's accelerated program, students must be in good standing at Saint Louis University and possess at least a 3.00 overall GPA and a 3.50 GPA in their current major.

In addition:

- Students must meet all course prerequisites prior to enrolling in any graduate-level coursework.
- Students must petition, and be permitted by, the undergraduate program administrator and the respective School for Professional Studies program director to pursue the graduate-level coursework sought.

Students may choose from the following graduate courses:

Code	Title	Credits
PMGT 5000	Project Management Principles	3
PMGT 5010	Project Selection and Initiation	3
PMGT 5020	Planning Projects	3
PMGT 5030	Project Execution and Delivery	3
Total Credits		12

Continuation Standards

Students must maintain a minimum 3.00 overall grade point average (GPA) and a 3.50 GPA in their major.

Graduate Admission

Students will not need to apply for admission to the graduate program, assuming they graduate with a 3.50 overall GPA or above and have successfully obtained a "B" or better in each of the 12 credits of the accelerated sequence. Instead, students work with their academic coach to petition to matriculate into the graduate program.

The program director will review the materials and make a final decision. If students do not meet the 3.50 overall GPA requirement or fail to obtain a "B" or better in the bridge program courses, they may submit a full application for admission, which requires supplemental materials that may improve the probability of admission.
